- Vogošća Police Forces Headquarters
- Janja Police Special Brigade

On 30 June 1995 on the Trnovo battlefield, the activities that commenced the previous day continued. A combat group consisting of the 5th Police Special Detachment, 7th Police Special Detachment and two platoons each from the *Kajman* Detachment, the “Blues” and the “Scorpions” (Serbian MUP), carried out attacks on the feature of Lučevik. On that occasion the 5th Police Special Detachment advanced along the line Brdjak (895) – Jaiča kamen – elevation 1012 and further towards Obrovac. Enemy forces along this line were routed and suffered casualties. Two 10mm mortars and some infantry weapons with good-quality written documents were captured. If an advance were to be made just a little more towards Obrovac, the feature of Gradina (939) would be cut off and the Trnovo-Vojkovića road would become passable.

We expect this task to be completed in a day or two.

The problem of failure to honour agreements with the Command of the Sarajevo-Romanija Corps regarding coordinated actions and take-over of lines persists.

In yesterday’s fighting, four members of the Police Special Brigade and three members of the Serbian MUP were slightly wounded.

The 4th Janja Police Special Detachment was in the battlefield area resting in the village of Tošići.

In the afternoon hours, Dragoš ROKIĆ, member of the 4th Police Special Detachment, was sitting together with several Detachment members when he /threw/ a hand grenade killing Melent UBIPAROVIĆ, member of the 4th Police Special Detachment, and wounding another four Detachment members, one seriously. They are all in hospital in Srbinje. The perpetrator was detained at the Trnovo police station and an on-the-spot investigation is currently being organised. I would like to stress once again that Police Special Brigade forces are battle weary and are carrying out their tasks with an enormous effort. This particularly applies to the 3rd Police Special Detachment, which has completely “disintegrated”, while the 4th Police Special Detachment suffered two fatalities and 27 wounded in this area. I therefore propose that they be pulled out of the area and returned to their domicile bases.

Police Special Brigade Deputy Commander
 Ljubiša BOROVCANIN
